PORTABL WEIGHBRIDGE
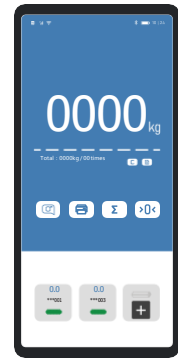

Portable weighbridge

APP
(Android 6.0 and above)

System Introduction :

The weighbridge is portable weighing system,
It composed of portable split scale and smart APP,
Is a brand new solution for weight management.
Its characteristics are as follows:

· Small & Light , Easy to carry and store

· Large measuring range, single scale can weigh 1.5 tons

· The split scale connects to the APP via Bluetooth

· Up to 3 split sacles can be connected at the same time

· Real-time monitoring and management of single scale and total weight

· Smart APP can realize more data applications

Bluetooth-printer

Combination Application

Specification
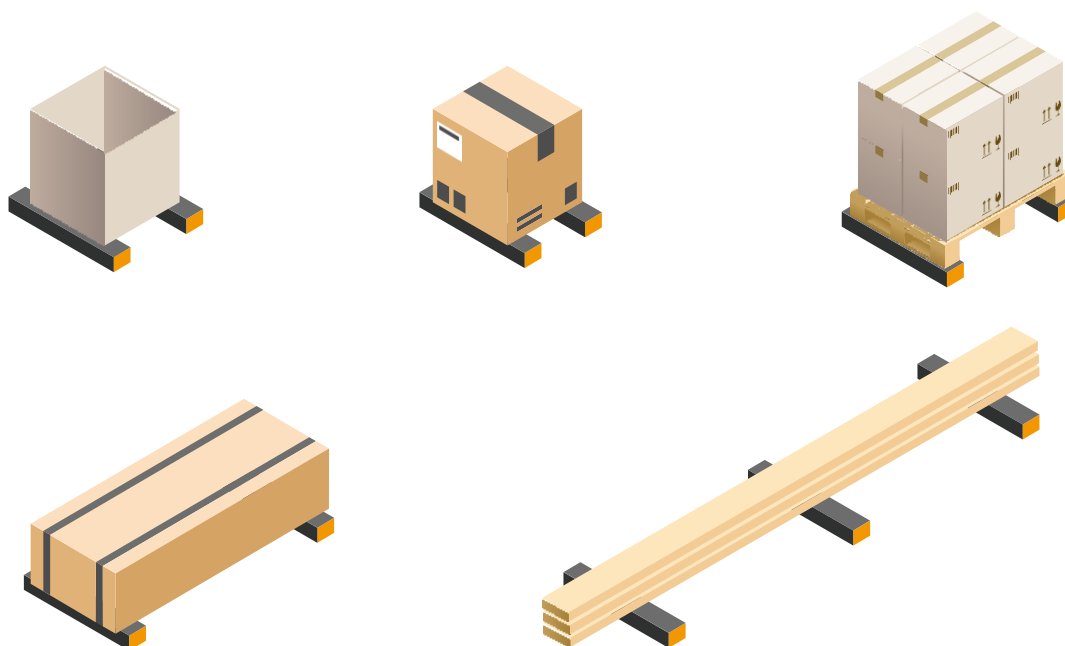

Model	PW-1500
Parameter	
Size	80cm*8cm*5.5cm
Weight	5kg
Material	Structural aluminum
Built-in battery	3.7v 9000mAh
Weighing	
Capacity (single)	1-1500kg
Composite deviation	1/3000①
Maximum working time	100 hours②
Charging time	6 hours③
Sensor	
Capacity (single)	1500kg
Material	Alloy Steel
Quantity	2
Protection Class	IP67
Working Temperature	—20℃—65℃
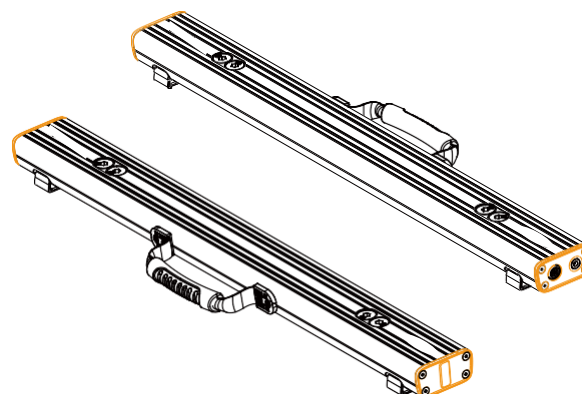

① The actual weighing accuracy may be affected by the ground

② ③   This data is a theoretical calculation value. Actual data may vary
